The following is Senator Chesbro's response to Governor Gray Davis' State of the State Address:

"California consumers deserve a bold approach to cleaning up the energy deregulation mess. Tonight they got one. I applaud the Governor's aggressive approach to regaining control of our energy supply. The Governor's plan to provide \$1.25 billion set aside for energy efficiency and new generation facilities is a good start. However, I will fight to make sure that any program must protect homeowners and small businesses from exorbitant rates. The State must protect consumers."

"I'm pleased to see the Governor continuing to heavily focus on education. I am happy to see more money going to teacher training. We all know that if we don't have good teachers teaching our kids, we will never be successful."
